### 24 Superb Whiskey Cocktails

#### ICED IRISH COFFEE

“When summer hits, and it’s a beach day or vacation time, I really enjoy starting my day (or afternoon) with an Iced Irish Coffee. Through the years of experimenting with different whiskeys, I find that the Kilbeggan Single Grain Irish Whiskey is my number one choice. We currently feature the Kilbeggan Single Grain Iced Irish Coffee on our new cocktail-to-go menu at the Millburn Standard, and it’s a hot item! The whiskey has such full body and flavor—with a perfect subtle bite that brings the whole drink together. You can taste the whiskey, but it doesn’t intimidate or overpower the drink. Added bonus: You can build it, shake it, and drink it in a regular thermos.” —*Jason Turon, beverage director at Millburn Standard (Millburn, NJ)*

JASON TURON

#### Ingredients:

1.5 parts Kilbeggan Single Grain Irish Whiskey

0.75 parts Demerara syrup (mix equal parts demerara sugar and water)

3–4 parts [Castle Run Cold Brew Coffee](#) (alternatively, any iced coffee will work but cold brew is preferred, specifically Castle Run cold brew)

Heavy whipped cream

Nutmeg

**Method:** Add Kilbeggan Single Grain, demerara syrup and cold brew coffee to a tall glass. Give it a good stir so everyone becomes friends in the glass. Float whipped heavy cream on top (we use a protein shaker to whip the cream). To finish it off properly, sprinkle a little nutmeg on top.
